<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<p>In the whirlwind book, a token "range(5)" was tagged as BR2P. As a result of which there is a very ugly tagging of the token with just "range(5)" tagged as bold red.</p> <p>URL: <a href="https://edutestdev-240612.appspot.com/document/python-whirlwind-tour/m?documentURL=10054%2Fds9aug1528%2FWhirlwindTourOfPython%2F13-modules-and-packages-implicit-import-of-module-contents-80.html">https://edutestdev-240612.appspot.com/document/python-whirlwind-tour/m?documentURL=10054%2Fds9aug1528%2FWhirlwindTourOfPython%2F13-modules-and-packages-implicit-import-of-module-contents-80.html</a></p> <p>You can find it in the last paragraph.</p> <p>The KP is getting linked to document with header "range(): A List Is Not Always a List". We need to make changes to ensure that only the "range" part of the token is tagged. Hence, the updated tags should be "BR2PPP". These changes will be made in <b>tagging_utils.py</b>.</p>
