Bug # 1906 (Resolved): Changes to make sure KP "c-types" is a red link atleast

Exclude both plural and singular forms of the words from Common Word list

Description			
As per Sakshi's observation, many plural KPs are assigned lower sim_score as compared to singular KPs. Upon investigation, we found out that the words in excluded_word_list were not excluded in uniformity i.e. both singular and plural forms should be removed but only exact matches from the list were removed. We need to fix this.
