<b>Target version:</b>	P1	<b>Spent time:</b>	0.00 hour
<b>Description</b>			
Using the book name added in the latest token files, we need to make sure that KPs similar to that are ignored. We need to make appropriate changes to ensure that. E.g. #%&subjectName:NumPy #%&bookName:User Guide  Any KP matching with "Numpy" or "User Guide" should be discarded. You can either remove such header variants itself or remove the KPs
