Description			
When user clicks on empty 'search terms box", show a list of results - one per selected book. The label can be <subject> <book> and pointing to the TOC.			
For example, if only Python Library Reference is selected, clicking on the search terms box can show "Python 3 Library Reference" and point to https://rapidken.ai/document/python-3*?documentURL=10015%2Fprd%2F3%2Flibrary%2Findex-toc.html .			
If 4 docs are selected, show 4 entries.
