

RK-A - Feature #2338

KPs like iterator and iterable need to be considered different

05/11/2022 03:06 AM - Ram Kordale

Status:	New	Start date:	05/11/2022

Target version:	P1	Spent time:	0.00 hour
Description			
in Python 3 Doc Library Reference > Internet Data Handling > json — JSON encoder and decode, iterable and iterator are considered the same. Thus, one is a purple link and another is a brown link. This needs to be fixed.
