- File Screenshot from 2022-10-28 14-52-45.png added

Adding a version to the sitemap filename for /createSiteMap API is working as expected on QA.

But this exception- **com.google.cloud.datastore.DatastoreException: The datastore operation timed out, or the data was temporarily unavailable.** is occurred during the sitemap creation of Library reference(  
sitemap-python-3-library-reference-prd.xml)
