Description

If you hover over the images, 'Inductive Clustering' in the source <https://scikit-learn.org/stable/modules/generated/sklearn.base.BaseEstimator.html#examples-using-sklearn-base-baseestimator>, we get some initial words - "Clustering can be expensive, especially when our dataset contains millions of datapoints. Many ..." from the destination page. This functionality is missing from our document -

<https://edutestdev-240612.appspot.com/document/scikit-learn-api-reference?documentURL=10007%2Fdsjan101019%2Fstable%2Fmodules%2Fgenerated%2Fsklearn.base.BaseEstimator-Examples-using-sklearn-base-BaseEstimator-74.html>.

Same issue exists with the 'Approximate nearest neighbors in TSNE' image.

It is possibly happening because the 'tooltip' attribute is not working in our website.
