RK-J - Bug #2905

When navigating to a page, ensure it starts on the top

02/27/2023 05:52 AM - Ram Kordale

Status:	Closed		Start date:	02/27/2023
Priority:	Urgent		Due date:	
Assignee:	Ram Kordale		% Done:	100%
Category:			Estimated time:	0.00 hour
Target version:	1-RK-J-1		Spent time:	0.00 hour

Description

Steps to reproduce one example case:
- goto home page
- check if 'start learning' button is visible. If it is, zoom in (ctl +) so that it is no longer visible
- scroll down and click on 'start learning'

The learn/videos page does not start on top. On my laptop, I see 'RapidKen.AI = Rapidly increase your Ken' on the top of my screen.

Same issue exists in multiple pages:
- scroll to the bottom of privacy page or about us page. click on home. Home does not start on the top.
- scroll to the bottom of the home page and click on other pages. They do not start on top.

History

#1 - 02/27/2023 07:02 AM - Ram Kordale

- Assignee changed from Rishabh Sharma to Rishabh Rai

#2 - 02/28/2023 01:03 PM - Ram Kordale

- Subject changed from Learn/videos page is wrongly scrolled to the bottom to When navigating to a page, ensure it starts on the top

- Status changed from Resolved to Reopened

goto page A. scroll down. click on something to go to page B. page B should start at the top. But, when you go back (using the browser back button), page A should be in the original "scrolled down" position. It should not go to the top. you can see the behaviour in the pages you fixed. but to get a better feel of the issue, you can try the following example also. goto https://edutestdev-240612.appspot.com/document/python-3-doc*?documentURL=10004%2Fprd%2F3%2Freference%2Flexical_analysis--Encoding-declarations-7.html. ensure you have to scroll down to click on 'standard encodings'. once you go to that page, hit the browser back button. it should be in the scrolled
