

RK-J - Feature #2933

Add version support to browser extension

03/16/2023 10:36 AM - Ram Kordale

Status:	Closed	Start date:	03/22/2023
Priority:	Normal	Due date:	03/24/2023
Assignee:	Ram Kordale	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1-RK-J-1	Spent time:	2.00 hours
Description			
<p>The browser extension is the client of getPurpleLinksInfoExtFull api. We will be in a situation where different versions of browser extension will be used by users and we have to respond correctly.</p> <p>We should plan to support 3 versions.</p> <p>For now, consider getPurpleLinksInfoExtFull(<p>), where <p> are the current set of parameters that are in production.</p> <p>The current version of the extension is fixed as 0.9. For the next version that sends 'extOpenCount', let us make the extension version 0.95. Let the extension send this version along with extOpenCount. This is the addition to 2917.</p> <p>All changes in the getPurpleLinksInfoExtFull api for this version can also use the version number so that it will work fine for the versions older than 0.95. Note that if we face some issue in the current extension, we may end up pushing a fix with a version TBD between 0.9 and 0.95.</p>			
Subtasks:			
Task # 2939: Ext: Send the version from the manifest in the getPurpleLinksInfoExtFull API.			Closed
Task # 2940: BE: Handle implementation based on version.			Closed

History
