Description

- Enable extension pointing to QA
- go to https://rapidken.ai/demo/js-snippet-explain-term?rapidkenDemo=true
- open copilot
- ask for "list"
- click on 'yes' answer from chatgpt

we should be taken to prod/chatgptplus; instead it goes to qa/chatgptplus.

According to the discussion with the ram sir, Snippet has higher priority than extension. If the page is having conflict between which one to show then show the snippet instead of extension. Add the flag in the snippet code, and at the time of showing the extension check the flag.
