RK-J - Feature #3247

Make explanatory modal squeeze into the copilot button

10/02/2023 04:41 AM - Ram Kordale

Status:	Review	**Start date:**	10/02/2023
Priority:	High	**Due date:**	
Assignee:	Ayush Khandelwal	**% Done:**	100%
Category:		**Estimated time:**	0.00 hour
Target version:	1-RK-J-1	**Spent time:**	2.00 hours

Description

Today, the copilot "open/close interface" is as follows:
-1. When page is loaded
--a. button shows up
--b. explanatory modal shows up
--c. explanatory modal disappears
--d. button shows up
-2. When user clicks on button
--a. button disappears in a "squeeze fashion"
--b. after x seconds, copilot opens

Need the following changes:
-1.c: make the explanatory modal disappear in the same "squeeze fashion" as 2a except it should squeeze into the button.
-2.b: make x as small as possible. if there is a deliberate delay today, make it zero.
