

## RK-A2 - Feature #3593

### FE - Support for global answer count

06/05/2024 05:01 AM - Ram Kordale

<b>Status:</b>	New	<b>Start date:</b>	06/05/2024
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.50 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<p>We need to mention "Happily served &lt;num&gt; answers" under the chat interface. Today, &lt;num&gt; starts from zero when the page is loaded. However, this needs to count all answers ever served.</p> <p>-When page is loaded, show the empty screen as usual. -do the following in the background --threadAnswerCount = get it from local storage (First time, it will be zero) --send an call_openai_api gcf call with empty message and threadAnswerCount.</p> <p>When you get the call_openai_api response (above or any future call), update threadAnswerCount and localStorage with answerCount --if threadAnswerCount is non-zero, show "Happily served &lt;threadAnswerCount&gt; answers"</p>
