

RK-A2 - Feature #3648

FE: get questions according to user's style preferences using get_questions api

07/03/2024 03:54 AM - Ram Kordale

Status:	New	Start date:	07/10/2024
Priority:	High	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.40 hour
Target version:		Spent time:	0.00 hour
Description			
<p>Instead of getting it from the GCS file, get questions from get_questions API (ticket 3647).</p> <p>High level scheme is to ask 5 questions each in each of the user's preferred styles. This should be done across sessions also. The last style used S, the last question asked Q and the list of questions L should be kept track in browser storage.</p> <p>If L is not in browser storage, call gcf get_questions_list(1) (ticket 3656) and store L.</p> <p>Ask user questions in order from L.</p> <p>Styles that user selects as per ticket 3638 are user preferred styles. Decide on the style for the next 5 questions in round-robin order.</p> <p>Based on the above, decide on the style for the next 5 questions and call get_questions (ticket 3647).</p> <p>For this ticket, fetch the question just before you have to show the question. later, we will cache it before hand.</p> <p>Some notes: -Everything between one occurrence of #Exercise: <exercise#> and the next is one question.</p>			
Subtasks:			
Feature # 3657: FE: Decide next question to ask and its style			Closed
Feature # 3658: FE: get questions from get_questions API instead of GCS file			Feedback
