**Description**

In 3.2.2.f dQNA above, all questions refer to "the reference text". in 3.2.2.g, the first question is "what is ...as per the source'. As you can tell, the user does not what the 'reference text' or 'source' is. Please change all such occurrences to 'textbook' in the 'create dQNA colab'.

List of phrases to replace with "textbook":
"reference text", "source", "given text", "reference", "provided text"
